

The Following is 440/200,000,000 Entries from a recent twitter leak. The leak was as a result of poor communication, and lack of oversight on behalf of the twitter dev team. This is why you should not give up your data. Your privacy is not a priority. While this document does not contain specifically sensitive information such as SSNs (which are now worth less than an active mobile number), this file is all ones needs to send 200,000,000 customized spam emails.
